MANIFESTE

**Rare.  
Fast.  
Collectable.**

---

The Ravage Groupe 4 is all of the above — and there will never be enough.

Drawing its roots from the legend of the Alpine A110, engineered for grip and traction beyond all expectations, hand-built in such limited numbers that it is already a collector's piece.

# Unique. For you.

## THE ULTIMATE BESPOKE EXPERIENCE

Our lead designer — former Head of Design at McLaren Automotive and Mercedes-Benz — honed his eye at two houses where every detail is a deliberate choice. Line, material, movement: he understands how a curve amplifies speed at a standstill, how colour converses with light in motion.

At Ravage, he is at the heart of the process from the very first sketches. Every project begins with an in-depth conversation with the client — their references, their intentions, what they want the car to say — before a single line is drawn. This dialogue is no formality: it is the foundation of every creation. Then, in close collaboration with our team of craftsmen, they read the bodywork like a score: every curve, every vanishing line becomes a defining element of the final design.

*RAVAGE*

A close-up photograph of a high-performance racing seat. The seat features vibrant orange-red upholstery with blue and red striped sections. A black Sabelt harness is secured across the seat, with yellow labels that read 'Range' and 'Sabelt'. The seat's frame is made of carbon fiber, and the overall design is sleek and aerodynamic. The word 'RAVAGE' is printed in a bold, italicized font in the top right corner.
